MEMORANDUM FOR: Deputy Director (Intelligence)

SUBJECT: Intelligence Deficiencies Revealed in SE-27

1. Attached herewith is a memorandum which I recommend the General sign, whereupon I would propose to disseminate this to the IAC in regular manner. You will note that there is attached to his paper at TAB B a statement for his information of the action which the Agency is taking to strengthen intelligence on China.

[Redacted]

3. My reason for including the assignment of responsibility to AD/IC in paragraph 4 of the General's memorandum is that this ties in very closely with the problems we have been working on to date with OCD and FDD and I believe can be done better by this office than by the EIC. I will, of course, work closely with Amory in this matter.

JAMES Q. REBER
Assistant Director
Intelligence Coordination

CC: AD/NE
AD/RR
